- Never use the Turbotrimmer if the safety devices are damaged or defective.

Unplug the mains plug after use and check your Turbotrimmer, especially the filament cassette, regularly for damage. Have your Turbotrimmer repaired and/or replace the filament cassette if necessary.

- If you stop work in order to move to another part of the garden, always switch off the Turbotrimmer, wait until the tool stops and then unplug the mains plug.

Familiarise yourself with the surroundings

For all portable units that are operated outdoors we recommend using a fault circuit breaker.

In Switzerland the use of a residual-current device is obligatory.
