Description

A new version of mower software has been released for the affected models (see above).

The software includes the following SW-Version:

Main: 10.38
HMI (old): 10.21
HMI (new): 10.24
Comboard: 11.9

This includes the following changes:

Smart mower:

- Bug fix: command "*Park until further notice*" resulting in the mower responding with "*cmd_err_busy*" when unused for more than 2 weeks. This problem is now solved.

All mowers:

- Improved "Child foot handling".
- Several minor improvements not described in detail in this SB.

It is strongly recommended to update the mowers at next service!
