smart SILENO city 250	All
SILENO city 600	All
smart SILENO city 600	All
smart SILENO city 300	All

Affected markets

All.

Description

A new version of mower software has been released for the affected models above.

The software includes the following SW-versions:
Main: 20.28
HMI: 20.11
Comboard (CBT2):   20.3

This includes the following changes:

- Start on start (mower starts by pressing start, also if battery is not fully charged).
- Improved passage handling (if mower is locked up in passage while mowing, it will search the guide wire and drive back to charging station for charging).
- Several minor improvements not described in detail in this SB.

It is strongly recommended to update the mowers at next service!

Warranty reporting information

Nothing in this SB can be subject to warranty claims. Warranty claims will not be accepted.
